## News Note

### Forum seeks to foster dialogue on carbon tax

Westchester Power, a community-based bulk energy purchasing program designed to increase the use of renewable energy and offer competitive fixed electricity rates throughout Westchester County, and Sustainable Westchester are sponsoring a Wednesday, July 26, forum in Bedford Hills to discuss carbon taxes.

Featuring Charles Komanoff, Gay-

lord Holmes and Sara Hsu, an economist at SUNY New Paltz, the forum takes place from 7 to 9 p.m., at 425 Cherry St. in Bedford Hills. "A Panel Discussion on Carbon Tax" aims to open a dialogue on the role that a carbon tax might play in discouraging the use of fossil fuels to produce energy while also increasing promoting the use of renewable and eco-friendly sources.
